### PK10 Reusable Anti-Static 3D Tack Pads

Extremely popular because the 3D profile of the material captures more dirt and dust and allows you to reuse the pad many times. They have become by far the most economical tack pad available today.

CODE	TYPE	1 Pack of 10
DRR160302	PK10 Reusable Tack Pads	

### Fine Line Tape

Radex Fine-Line Tape in roll is very thin self adhesive blue vinyl tape with good solvent resistance, high conformability and a smooth, sharp mask-off edge. The blended rubber based adhesive system offers high temperature resistance through bake cycles up to 155°C for 45 minutes. Radex Fine-Line Tape is durable, easy to apply and to remove after use. It doesn't leave any residues. Service temperature range is from 0°C to 155°C.

### 50m Rolls Washi 150°C Sharp Edge Tape

Radex Washi rice paper tape (also known as Japanese Flat Paper) is generally used for paint masking applications. This Washi paper tape does not break when peeling, but can be easily cut or torn by hand. Radex Washi tape will not give adhesive residue and not change colour up to 150°C for 30 minutes.

CODE	TYPE	1 Each
TMR380019-1	19mm Washi Roll	

### 50m Rolls 120°C Bake Masking Tape

RADEX PROFI masking tapes can be used not only in professional automotive sphere but as well for kitchen, furniture, machinery & equipment, manufacturers. Thermo resistance up to 120C degrees. Crepe paper in white color is resistant to waterborne paints and any infrared heaters. Radex Profi Masking tape ideally sticks to the surface and doesn't leave any residues after removal.

## Professional Finishing

# BUFFING AND POLISHING

### radexo 1L One-Step Buff & Polish Compound

Now you can make your polishing process more efficient and faster than before! RADEX one step polishing compound is specially designed for paint finishing work on scratch resistant surfaces including UV cured paints:

- Fast removal of blemishes
- Deep scratch removal
- Works perfectly with the RDX-2 Pad or Lambswool Pad
- Repairs top coats
- Time & product economy

CODE	TYPE	1 EACH	3 EACH
BPR170405	1L One-Step Buff & Polish		
BPR181411	<b>Recommended</b> PK2 x Yellow Medium RDX-2 Pads		
BPR181500	<b>Recommended</b> 150mm Velcro Lambswool Pad		

### radexo 1L Anti-Hologram Compound

This is a very effective specifically formulated fine paste which removes swirl marks, blooms and holograms, especially on dark paintworks. The extremely fine nano-particles guarantee an outstanding final finish with an unmatched deep gloss. The cut intensity can be regulated by using different radex polishing pads and polishing speed.

CODE	TYPE	1 EACH	3 EACH
BPR170406	1L Anti-Hologram		
BPR181412	<b>Recommended</b> Pk 2 Black Soft Polish Pads		

### radexo 150mm Lambs Wool Buff Pad

Radex lambs wool polishing pad offers the ultimate quality and performance. This top quality lambs wools cut quicker than a foam pad, and last longer. The heat absorbing characteristics of wool fibres greatly reduces the amount of heat generated during machine polishing, allowing defects to be eliminated quicker.

CODE	TYPE	1 EACH	3 EACH
BPR181500	1 x 150mm Wool Pad		

### radexo M14 Machine Backing Pad

Universal Ø 125mm Velcro pad for 150mm (6") buffing & Polishing Pads.

Weight 10Kg.

CODE	TYPE	Trade	1 Each
YT-6505	100mm (4") 10Kg		

Prices quoted are per unit and exclude GST.

# DRILLS AND PUNCHES

## New 10pc Cobalt-HSS Drill Set

Yato Cobalt drills bits (HSS-Co) are a preferred drill for harder materials especially stainless steel. The primary reason for this being they hold there rigidity and hardness at a higher temperature than HSS drill bits. All our cobalt drills have split points 135o (self centring points). Cobalt drills are suited to CNC machines, Pillar Drills and Drill Presses due to the brittleness of the material compared to standard HSS.

Diameter Size mm; 1, 2, 3, 4, 5, 6, 7, 8, 9, 10

CODE	TYPE	Trade	1 Each
YT-41603	10pc Co-HSS 1~10mm

# SPRAY GUNS

## Almax Nova HVLP Gravity Spray Gun 1.8mm

NOVA HVLP Gravity fed Spraygun 1.8mm tip size, 600ml cup,

CODE

NOVA-1.8

## Star S-770 Suction Gun Only

Full size production spray gun complete with 1 litre suction cup. Star S-770 series is probably the most widely used spray gun and is suitable for an incredible range of paints and coatings. This series has the Blue Air Cap with 7 holes for quality atomization and can also be used with a pressure pot. It is available in 6 tip sizes and the fluid tip and needle are stainless steel. Air consumption is 250 - 325 l/min (9 - 11.5 cfm) at 2.5 bar (35 psi) and fan width from 240 - 280mm. Available in 1.5, 1.7, 2.0 and 2.5mm nozzle.

CODE

S-770-XXX-LC

## Star SMP-106F Gravity Gun and Cup.

Perfectly balanced, lightweight, strong forged body with fully anodised finish. Suitable for use with all solvent and water borne paints. High transfer efficiency of 65% at a low air pressure of 29psi (2 bar). Chrome plated air cap has quick one and a quarter turn for rapid on/off, easy cleaning and no cross threading. Calibrated adjustment controls with side fan pattern control. Supplied with paint filter, cleaning brush, service spanner and Big Bore quick connector. Available in a 1.4, 1.8 and 2.0mm nozzle

CODE

SMP-106F

## Star S-770 Suction Gun and Cup

Full size production spray gun complete with 1 litre suction cup. Star S-770 series is probably the most widely used spray gun and is suitable for an incredible range of paints and coatings. This series has the Blue Air Cap with 7 holes for quality atomization and can also be used with a pressure pot. It is available in 6 tip sizes and the fluid tip and needle are stainless steel. Air consumption is 250 - 325 l/min (9 - 11.5 cfm) at 2.5 bar (35 psi) and fan width from 240 - 280mm. Available in 1.5, 1.7, 2.0 and 2.5mm nozzle.

CODE

S-770-XXX

## Star SMV-4F Gravity Gun & Cup

The SMV series is the top of the range and features a forged body that is light weight and strong and exceptionally nice to hold. The new air cap design provides first class atomisation for all automotive paints. Low overspray is a feature of this spray gun. The gun is supplied with a 600ml centre feed gravity cup, gravity filter, cleaning brush, spanner and Big Bore quick connector. Available in 1.4, 1.6, 1.8 and 2.0mm nozzle

CODE

SMV-4F

## Star SMV-2F Suction Gun & Cup

The SMV series is the top of the range and features a forged body that is light weight and strong and exceptionally nice to hold. The new air cap design provides first class atomisation for all automotive and industrial paints. Low overspray is a feature of this spray gun. The gun is supplied with a 1 litre suction cup, filter, cleaning brush, spanner and Big Bore quick connector. Available in 1.5, 1.8 and 2.0mm nozzle.

CODE

SMV-2F

### Star Arco Gravity Gun 1.8mm

- Classic style, all purpose gravity fed spray gun
- Air flow regulator
- Tip size: 1.8mm
- 600cc cup
- Air consumption 9.0 – 10.0 cfm (255-285 l/min)
- Max pattern width; 250mm -280mm
- Made in Taiwan

CODE

ARCO-G18

### Star Arco Suction Gun 2.0mm

- Classic style, all purpose suction fed spray gun
- Air flow regulator
- Tip size: 2.0mm
- 1 litre aluminium cup with drip-free diaphragm fitted
- Air consumption 9.5 – 11.0 cfm (270-310 l/min)
- Max pattern width; 280mm
- Made in Taiwan

CODE

# AEROSOLS

### Professional Series Etch Primers

A single pack epoxy etching primer with excellent adhesion to all metals. Excellent anti-corrosion and mar resistant qualities. Compatible with most topcoats eg. 2 pack urethanes, epoxies, chlorinated rubber, lacquers and enamels. Touch dry 5 minutes, dry to handle in 20 minutes and can be recoated in one hour. May be used as a single product 3 coat system for interior use or for exterior exposure for 3-4 months. It has a matt finish.

CODE

BLACK - CPS401

GREY - CPS405

WHITE - CPS421

### Professional Series Zinc Rich Weld-Thru Primer

A cold galvanizing primer that contains 86% Type I inorganic zinc in the dried paint film. Resists oxidation, and the galvanizing protection continues even if scratched. Can be topcoated for maximum durability. Meets or exceeds the performance requirements of ASTM A780, MIL-P-26915C, MIL-P-46105, DOD-P-21035A, SSPC-Paint 20. Contains an additive which results in less smoke and electrode wear when welding, and cuts faster than 100% zinc rich coatings.

CODE

SFA102

### Professional Series Shiny Galv

A smooth, zinc enhanced compound that dries to a durable, crack resistant coating to protect iron and steel surfaces. Excellent for cosmetic restoration of galvanized surfaces, like chain link fences and guard rails. Does not meet specifications calling for 65% zinc in the can or greater than 90% zinc in the dried paint film.

CODE

SFA100

### Professional Series Rust Converter

ColorPak's Rust Converter can be applied to any iron or steel surface to penetrate rust and turn it into a protective black coating. This protective coating will be resistant to moisture and prevents future rust growth. Just remove any loose rust, then apply it like a primer to rusted surfaces. Greatly reduces time spent wire brushing and sanding. Durable and tough, it can be left as is, but is also compatible with most top coats.

CODE

SFA098

### COLORPAK BLISTER PACKED AEROSOL SPRAYGUN AND REFILL

Portable aerosol powered spraygun. Ideal for spraying water based and solvent based paints, metallics, primers and hammertones. The simple professional way to apply a wide range of liquids in spray form.

Also ideal for two-pack systems (epoxies), wrinkle finishes, rust inhibitors, insecticides, adhesives, gelcoat and more. Power units and liquid containers are easily changed and replacement units are available as extras.

Depending on the consistency of liquid being sprayed, each power unit will spray up to 500ml of liquid.

CODE

CJS120 - BLISTER

CJS121 - POWER UNIT
