## 4.0 First Aid Measures

- 4.1 Inhalation** Bring patient to fresh open air. If breathing difficult give oxygen.
- 4.2 Skin Contact** Wash with soap and water. Remove and launder contaminated clothing before reuse.
- 4.3 Eye Contact** Flush with water lifting lids occasionally. Seek medical attention.
- 4.4 Ingestion** Do not induce vomiting. Keep patient warm and quiet. Seek medical attention immediately. Rinse mouth with water.
- 4.5 First Aid Facilities** Eyewash and normal washroom facilities and consumables.
- 4.6 Notes to Doctor** Treat symptomatically. Aspiration is the main danger. Enforce bed rest and observe carefully. Prophylactic antibiotics useful. Observe for chemical pneumonitis. Gastro-intestinal absorption is significant with hydrocarbon solvents. For large ingestions cuffed endotracheal tube is recommended.

## 5.0 Fire Fighting Measures

- 5.1 Flashpoint** 35°C
- 5.2 Flammability Limit** 1.3 – 7 %
- 5.3 Extinguishing Media**  
Foam, carbon dioxide, dry chemical.
- 5.4 Hazardous Composition Products**  
May form toxic materials such as Carbon Monoxide and Carbon Dioxide.
- 5.5 Special Firefighting Procedures**  
Call Fire Service and tell them of location and nature of hazard.  
Water or Foam may cause frothing that can be violent, especially if sprayed into containers of hot burning liquid. Self contained breathing apparatus with full face piece should be used.  
Closed containers can be kept cool by water spray.  
Make sure of adequate supplies of extinguishing material available.
- 5.6 Unusual fire and Explosion Hazards**  
Vapours are heavier than air and may travel along ground and move by ventilation and ignite at a point far from the source. Sumps and drains should be checked for signs of accumulation.
- 5.7 Firefighting Personal Protective Equipment**  
Full protective clothing and self-contained breathing apparatus.  
Water rinse shower available.

## 6.0 Accidental Release Measures

- 6.1 Minor Spills** Eliminate all sources of Ignition. Stop leak at source. Dyke area of spillage. Absorb with sand or other absorbent inert material.
- 6.2 Major Spills** Clear area from all public and personnel. Call fire service and advice on the nature of hazard. Ensure spill is contained however if spill enters waterways directly or through drains advise local environment protection authority.
- 6.2 Disposal** Destroy by controlled incineration by approved waste disposal group or use an authorised disposal area.

## 7.0 Handling and Storage

- 7.1 Handling** Use in well ventilated area away from any source of ignition. Wear safety glasses, nitrile gloves, overalls, and approved cartridge respirator when spraying.
- 7.2 Storage** Store in a cool, authorised room away from any source of accidental ignition, or any oxidising agents.
